NOW THE GEMS IN YOUR COLLECTION

White *Cypripediums*

Among the loveliest, most chastely beautiful of all orchids are the WHITE LADY SLIPPERS. Generations have been required to breed these satisfying easily grown gems to be treasured in your collection. Now after years of collecting and propagating, we bring them to give you years of increasing pleasure.

Grow them with Cattleyas or in the home. They bloom throughout the winter months - the flowers last for weeks. For prideful pleasure, WHITE CYPS are a wonderful investment.

WELL ESTABLISHED, FLOWERING SIZE, 2-3 GROWTH PLANTS

F. C. PUDDLE, FCC/RHS, (Actaeus x Astarte) \$49.50
Unquestionably the most famous of all white *Cypripedium* parents.
A strong grower and a free bloomer.

SUSAN TUCKER, (Shalimar x F. C. Puddle, FCC/RHS) \$22.50
In our opinion, one of the finest white *Cyp* crosses ever bred.
A number have won awards, while scores of others are near or award quality. The growth is very good. Flowers of most forms are large, of good shape and carriage and well carried on strong stems. Flowers open creamy-yellow and turn white on maturity.

ALBION, FCC/MOS, (Astarte x niveum) \$25.00
A perfect gem of a flower. Tiny growing. Flowers purest glistening wax-white color. Dorsal lightly flecked crimson.

ROSY DAWN, (Astarte x Gwen Hannen) \$11.75
One of the most satisfactory, because of its vigor and freedom of bloom. Often flowers twice a year. Flowers medium size on good stems. White with light pink blush.
